

# Construction Specifications Canada Grand Valley Chapter

## Meeting Notice – Lunch Seminar

### The Art of Specifying Natural Stone

with guest speaker

Cathie Schneider, Stonequest Inc.

#### Seminar Overview

This one-hour session is designed to give architects, landscape architects and designers an overview of how to specify natural stone. There are many factors to consider ensuring you are choosing the proper material for your project. What do you need to know about its species, color variations, and finish possibilities? Is the quarry able to produce the sizes and quantities you need? And finally, what factors affect the price of the stone you specify? Get the resources you need to help ensure the stone you choose meets the standards and design intent set for your application.
